## PROFILE

Motivated IT Specialist student with hands-on project experience and leadership skills. Seeking an internship or entry-level role to apply my technical knowledge, teamwork abilities, and problem-solving skills to real-world challenges while growing as a developer.

## EDUCATION

BSc (Hons) in Information Technology specializing in Information Technology

SLIIT University, Malabe

Expected Graduation: July, 2027

Relevant Coursework:

Web Design for Beginners(CODL)

University of Moratuwa

Artificial Intelligence and Machine Learning - Stage 1(CODL)

SLIIT University

## Project Experience

### Team Leader

Project Autofiks

FEB 2025 – present

Spare Parts and Automobile Service

Management System(SPASMS)

SLIIT University, Semester Project

Led a team of four to develop a web-based SPASMS application using the MERN stack. Oversaw task delegation and milestone tracking. Implemented the core admin panel, real-time updates, and user authentication across both the front-end and back-end.

### E-Commerce Website Project

Personal Project

DEC 2024 – FEB 2025

Developed the frontend of an e-commerce website using React and Tailwind CSS, ensuring responsive design. Designed the full-stack architecture, managing both the front-end and back-end without database integration.
